EDUCATION

University of Central Florida

Bachelor of Science in Computer Science

Awards: Bright Futures Scholarship (Full Tuition)

Orlando, FL

Expected Fall 2029

EXPERIENCE / INVOLVEMENT

Treasurer

May 2026 – Present

Graphics Programming Knights

Orlando, FL

- Manage finances for GPK, a CS RSO serving **150+** UCF students, overseeing club budget, expense reports, and event reimbursements.
- Led procurement of **100+** branded club t-shirts, negotiating vendor pricing and coordinating design selection, ordering, and member distribution.

CS Workshop Committee

Mar. 2026 – Present

UCF SASE

Orlando, FL

- Helped plan and set up **3+** CS workshops on web development, algorithms, and AI alongside the Technical Chair.
- Drive workshop awareness through social media campaigns, STEM lecture-hall announcements, and on-campus tabling to boost sign-ups across each semester.

Outreach Team

Jan. 2026 – Present

Knight Hacks

Orlando, FL

- Represent Knight Hacks at **3+** tabling events, pitching the RSO to students and incoming freshmen to grow campus engagement.
- Drove **25,000+** Instagram views through targeted event announcements and multi-channel marketing campaigns.

PROJECTS

CrisisNet | *Next.js, React, TypeScript, Tailwind CSS, Python, Google ADK*

- **Won Best Use of .tech Domain at HackUSF 2026** – AI-powered multi-agent disaster response platform for Tampa Bay flood resilience, built in a **4-person** team with bilingual (English/Spanish) alerts.
- Built the Next.js dashboard frontend in TypeScript and Tailwind CSS, including live Leaflet maps for shelter discovery and Recharts components for historical flood data analysis.
- Connected the frontend to a Google ADK backend orchestrating **5** specialized agents (Scout, Triage, Resource, Comms, Coordinator) matching users to **48** geocoded emergency shelters with Mailgun-powered alert dispatch.
- Deployed to production on Vercel with **CI/CD** via GitHub, shipping a live public-facing app at crisis-net.tech.

Vigil | *Next.js, React, TypeScript, FastAPI, SQLite, WebSockets, OpenAI API*

- Contributed frontend as part of a **6-developer** team building an open-source self-hosted SIEM dashboard, using **Agile** methodology and **Jira** ticketing.
- Built the Next.js dashboard frontend in TypeScript with a live events explorer, alert feed, health monitor, and settings views, streamed via **WebSockets** from a FastAPI + SQLite backend.
- Wired the frontend to backend APIs parsing **120+** predefined Grok log patterns, with OpenAI-generated patterns auto-created for unrecognized log formats.

FlashQuest | *Python, PyQt6, Pygame, Google Gemini API, ElevenLabs API*

- Designed a PyQt6 flashcard UI and Pygame RPG battle screen in a **4-person** team, featuring **16** unique cards across **4** rarity tiers and **6** combat mechanics (poison, bleed, stun, dodge, multi-hit, instakill).
- Leveraged Google Gemini API to auto-generate flashcard Q&A from **PDF** and **DOCX** uploads via pdfplumber and python-docx, removing manual flashcard creation.
- Implemented ElevenLabs text-to-speech for audio playback of flashcard content, expanding accessibility for auditory and visually-impaired learners.

TECHNICAL SKILLS

Languages: Python, C, HTML, CSS, JavaScript, Java, TypeScript

Frameworks / Libraries: React, Next.js, Tailwind CSS, FastAPI, PyQt6, Pygame, Leaflet, Recharts

Developer Tools: Git, GitHub, Vercel, Supabase, SQLite, WebSockets, Jira

Certifications: CompTIA IT Fundamentals+ (2024), CompTIA Tech+ (2025)
